Research Fellow:

In search of a Research Fellow to assist in the development of a virtual database, with a focus on Lung Cancer within the field of Thoracic Surgery. The fellow will lead multiple research projects developed within a multidisciplinary setting of the lung cancer patient's care. Also, the Fellow will coordinate the research work of medical students who are part of our team.

The position will be for the duration of **one year**, and comes with the benefits of scholarship and experience.

Applicants must be fluent in English (speak and write), have prior research experience, be dedicated to this project, and willing to work with others. Applicants must also be proficient in Microsoft Word, Excel, Powerpoint, etc.

Position is to be filled as soon as possible, applicants will be required to submit a CV and participate in an interview process.

With any questions please reach out to Dr. Paula A. Ugalde at pugaldefigueroa@bwh.harvard.edu.
