ESTS SCHOOL

AstraZeneca 

ASTRAZENECA WEBINAR SERIES

WEBINAR 1 - WEDNESDAY 13 SEPTEMBER 2023 MULTIDISCIPLINARY ROUND TABLE DISCUSSION

Implementation of lung cancer screening in Europe –
Hurdles and surgical involvement

Biomarkers and Italian perspective

UK Perspective

German perspective

4 In The Lung Run – the next step after Nelson

Round table discussion and questions

WEBINAR 2 – WEDNESDAY 11 OCTOBER 2023 MULTIDISCIPLINARY ROUND TABLE DISCUSSION

Oligometastatic disease – When to operate and novel
treatment options

Surgical approach to OMD

What radiation can do in OMD

Novel systemic treatments

Roundtable discussion – Timing, sequence and unsolved
questions

WEBINAR 3 – WEDNESDAY 29 NOVEMBER 2023 PRO/CON DEBATE

Sublobar vs. wedge resection in NSCLC < 2cm

Workup of incidental pulmonary nodules

Only anatomical segmentectomy is a valid approach

Wedge resection is the appropriate choice

Discussion

WEBINAR 4 - WEDNESDAY 20 DECEMBER 2023

Perioperative immunotherapy and targeted therapies –
novel strategies

Neoadjuvant

Perioperative

Adjuvant

Discussion

WEBINAR 5 - WEDNESDAY 17 JANUARY 2023

Biomarker testing before and after surgery for NSCLC

Overview on possibilities and limits of molecular
biomarker testing in NSCLC – What pathology can offer to
thoracic surgeons

Selection of adjuvant therapies – Impact of surgeons to
increase patient adherence

Discussion

WEBINAR 6 - WEDNESDAY 28 FEBRUARY 2024

Novel technologies in lung cancer from diagnosis to
surgery

Artificial intelligence in lung cancer imaging

Can we predict EGFR mutation by CT imaging?
(Lancet Digit Health. 2022 May;4(5):e309-e319)

Augmented reality during segmentectomy

Discussion
